ABOUT

THIRD SHIFT is a contemporary art festival presented by Third Space, a not-for-profit artist-run centre in Saint John, New Brunswick. The land on which we gather, create, work, and play is the traditional unceded territory of the Wolastoqiyik/Wəlastəkwiyyik (Maliseet) Peoples. This territory is covered by the “Treaties of Peace and Friendship” which Wəlastəkwiyyik (Maliseet), Mi’kmaq, and Passamaquoddy Peoples first signed with the British Crown in 1726.

THIRD SHIFT was created in 2015 as a platform for new experiences and communal exchange. The event aims to offer Saint John citizens and visitors to the city a unique opportunity to engage with contemporary art and re-imagine urban space.

Third Space is an itinerant artist-run centre for contemporary art in Saint John, New Brunswick. We are committed to representing local, regional, and national professional contemporary artists. Third Space highlights the work of emerging and established artists who cross disciplines and boundaries in their examinations of contemporary culture.

The aim of the Third Space is to facilitate the education, understanding, and appreciation of contemporary art at a local, national, and international level. It does this by hosting exhibitions, workshops, residencies, lectures, performances, and screenings, as well as by publishing and disseminating materials relevant to this aim.

THEME: REVOLVE

This year's theme, "REVOLVE", reflects on many aspects of our livelihood: our job prospects, our creative practice, our social lives- everything which remains in perpetual motion. Revolve refers to the everchanging, constant flow of ideas, movements, thoughts, emotions, and powers that drive us to create.

In a day and age where we are constantly fed information, both through the internet and in our everyday lives, it is important to continue creating, no matter how the world revolves around us. THIRD SHIFT provides a platform for artists to experiment through public art in a low-barrier, accessible fashion, with themes like these guiding their way. What does revolve mean to you?
