ABOUT

THIRD SHIFT is a contemporary art festival presented by Third Space, a not-for-profit artist-run centre in Saint John, New Brunswick. The land on which we gather, create, work, and play is the traditional unceded territory of the Wolastoqiyik/Wəlastəkwiyik (Maliseet) Peoples. This territory is covered by the “Treaties of Peace and Friendship” which Wəlastəkwiyik (Maliseet), Mi’kmaq, and Passamaquoddy Peoples first signed with the British Crown in 1726.

THIRD SHIFT was created in 2015 as a platform for new experiences and communal exchange. The event aims to offer Saint John citizens and visitors to the city a unique opportunity to engage with contemporary art and re-imagine urban space.

Third Space is an itinerant artist-run centre for contemporary art in Saint John, New Brunswick. We are committed to representing local, regional, and national professional contemporary artists. Third Space highlights the work of emerging and established artists who cross disciplines and boundaries in their examinations of contemporary culture.

The aim of the Third Space is to facilitate the education, understanding, and appreciation of contemporary art at a local, national, and international level. It does this by hosting exhibitions, workshops, residencies, lectures, performances, and screenings, as well as by publishing and disseminating materials relevant to this aim.

theme: channels

THIRD SHIFT: CHANNELS aims to explore, dissect, and interact with the overlapping avenues where we work, create, and play. The theme, “channels”, suggests a variety of ways in which we navigate the world around us, whether it be through waterways, roads and desire paths, internet streams, radio signals, love letters, circuits, emails, among other things.
